WHO WE ARE

The Heartland Community Foundation Youth Action Council is a leadership and enrichment program for high school students, grades 10-12, in Ellis, Rooks, and Trego counties. The program brings teens together from area high schools to learn about community needs, while empowering them to be changemakers. YAC members should want to make a positive impact in their communities and be eager to share ideas to help address the needs of their peers. Council members will have the opportunity to learn about generosity in a practical way – by being generous.

WHAT WE DO

The mission of YAC is to empower youth to be involved in community decision making, to encourage active community participation, to cultivate a spirit of philanthropy, and to instill in members a deeper sense of community pride. YAC members will learn about the grantmaking process by awarding grant dollars in their communities and by developing a community project.
